AGRICULTURAL INNOVATION & SOLUTIONS

July 16, 2018

Variety: OAC Kent

IP Soybean Update

Crop Conditions:

Plant health is excellent with no sign of White Mold found or Septoria showing up under the canopy on the bottom leaves that are dying off. The plants are fully canopied in, with a nice dark green colour across the field.

Crop Staging:

The field is at the full bloom stage (R2), meaning there is an open flower at one of the two uppermost nodes on the main stem with a fully developed trifoliolate leaf node.

Weather:

The last two weeks have brought very little rain with high temperatures and humidity.

Accumulative Weather Data Estimates from May 1st to July 12th

Location	Precipitation (mm)	GDD	CHU
Brigden 2018	98.8	1013	1590
Brigden 2017	206.4	900	1455
