July 16, 2018

## IP Soybean Update

### Crop Conditions:

Crop is looking excellent. Weed control is good. Could use some rain soon. No pest pressure to report.

### Crop Staging:

R1 (beginning bloom) growth stage.

### Weather:

The weather has not been favourable for the crop as it has started to flower. The stress of the dry and hot weather may result in some flowers being aborted but hopefully we get a well needed rain possibly yet today. Beyond that the forecast is cooler and to remain dry.

### Accumulative Weather Data Estimates from May 1<sup>st</sup> to July 12<sup>th</sup>

Location	Precipitation (mm)	GDD	CHU
Harmony 2018	123.0	966	1549
Harmony 2017	198.2	794	1310
Harmony 8 year Avg	184.0	827	1389

### Harmony, Ontario

Crop canopied in

R1 growth stage
